

EDELRID GmbH & Co.KG confirms,

following the ActSafe test methodology, the successful completion of:

ActSafe ROPE SUITABILITY TEST

with the following rope:

EDELRID Interstatic Protect 11,0 mm

The tests were performed on 24.11.2020 with dry rope samples with the ActSafe ACC Ascender according to the tests defined at:

<http://www.actsafe.se/operation/rope-test>

All rope samples were thereafter inspected and approved by Edelrid.

The ActSafe rope suitability tests were successfully performed with the Interstatic Protect 11,0 mm in the following colours: night.

The above EDELRID rope is therefore recommended to be used in conjunction with ActSafe ACC Ascender.

Isny im Allgäu, 22.01.2021
