EDELRID GmbH & Co.KG confirms,

following the ActSafe test methodology, the successful completion of:

ActSafe ROPE SUITABILITY TEST

with the following rope:

EDELRID Static Low Stretch 11,0 mm

The tests were performed on 14-15.10.2019 with dry and pre-soaked rope samples with the ActSafe ACX Ascender and on the 24.11.2020 with dry and pre-soaked rope samples with the ActSafe ACC.

All tests were undertaken according to the tests defined at:
http://www.actsafe.se/operation/rope-test
All rope samples were thereafter inspected and approved by Edelrid.

The ActSafe rope suitability tests were successfully performed with the Static Low Stretch 11,0 mm in the following colours: snow, red, neon green.

The above EDELRID ropes are therefore recommended to be used in conjunction with ActSafe ACC and ACX Ascender.

Isny im Allgäu, 22.01.2021
